

Angela Hough

SENIOR ATTORNEY

BIOGRAPHY

Angela Hough is a seasoned attorney with nearly 20 years of legal experience shaping her solutions-oriented and collaborative approach to providing legal counsel. Her diverse professional background includes private practice at large law firms and in-house legal representation of a multinational privately-held corporation, two national publicly-traded entities, and a Texas governmental entity. In each situation, Angela furthers her clients' objectives with her legal expertise and business acumen.

EXPERIENCE & HIGHLIGHTS

Angela provided legal services as an associate attorney at Thompson & Knight LLP (now Holland & Knight LLP) and Carrington, Coleman, Sloman & Blumenthal LLP, advising clients in a variety of legal matters, including in securing large lending facilities collateralized by real property assets, in the exploration and production of mineral interests both on-shore and off, and in the development of real property in Texas from raw land through construction.

After working at law firms, Angela transitioned her practice to providing legal counsel in-house, working directly with business people every day to achieve enterprise objectives. She was Senior Corporate Counsel for Alon USA Energy, Inc. where she worked on an assortment of projects for three refineries and multiple lines of business in the petroleum industry.

EXPERIENCE & HIGHLIGHTS CONTINUED

After Alon, Angela served as Assistant General Counsel of the North Texas Tollway Authority. While at the NTTA, she applied her extensive real estate and construction knowledge to develop NTTA's roadway system. During the COVID-19 pandemic, and still at the NTTA, Angela negotiated and secured property rights for the expansion of NTTA's flagship roadway, the Dallas North Tollway, for an additional eight miles. This effort ultimately culminated in a positive conclusion both for the NTTA and North Texas landowners.

AFFILIATIONS & HONORS

Angela and her husband, Ben, enjoy an active homelife with three kids, three dogs and a cat. In addition, Angela serves as a CASA, advocating for children in the foster care system as their cases make their way through the Texas judicial system. Angela also acts as a facilitator for Project Unity's Together We Dine program, moderating multiple important conversations a month among members of the diverse DFW community and beyond as the program grew to international recognition.
